GLASS SLIDING DOOR MORE THAN A DOOR

The Profin glass sliding door opens up new views and brings a special comfort to your home: offering light, space and seasonal landscapes. Also, the glass sliding door combines indoor and outdoor spaces effortlessly and allows efficient use of floor space.

The air-tightness and thermal insulation characteristics of glass sliding doors are superior to those of traditional doors.

Coherent design for your home

To complement your glass sliding door, choose fixed windows from the same product range. The design and technical details are the same.

Effortless installation

Profin supplies its products ready for installation. The shipment includes all the necessary accessories, instructions and also colour-matched maintenance products.

Quality from Finland

Profin is a Finnish company specialising in the design and manufacture of high-quality windows, doors, and glass sliding doors. The company has produced glass sliding doors for over 20 years and other products for nearly 40 years, with exports to more than 30 countries. Profin is firmly rooted in Pudasjärvi, Northern Finland.
